# ORGANISATIONAL PERFORMANCE MANAGEMENT

## PART1

### 1. EXECUTIVE OVERVIEW

**The executive overview aims to provide an overall summary of the organizational performance management framework document. Each of the areas covered in the main document is summarized below.**

**1. Definition of performance management:** Performance Management is a process which measures the implementation of the organisation's strategy. It is also a Management tool to plan, monitor, measure and review performance of indicators to ensure efficiency, effectiveness and impact of service delivery by the municipality.

**2. The Aims and objective of Performance Management Framework is to:**

- Clarify processes of implementation
- Ensure compliance with Legislation
- Demonstrate how the system will be conducted
- Define Roles and Responsibilities
- Promote Accountability and Transparency
- Reflect the linkage between the IDP, SDBIP, Budget and performance management.

**3. The Legal Framework which informs other documents is the Municipal Systems Act 32 of 2000, the Municipal Finance Management Act and regulations which are included in the main document.**

**4. The Benefits of a Performance Management Systems**

- Identifies major or systematic blockages
- Ensures accountability between residents and the Political administrations of the Municipality
- Provides early warning signals

**5. The Key issues underpinning the success of Performance Management are:**

- Top Management and council have to drive the system
- Communication must occur at all levels
- The value of having the PMS must be understood
- The system provides learning opportunities through the coaching and review process
- Performance Management is an ongoing process

**6. The elements of the Performance Management Cycle are listed below and detail is provided in the main document.**

- Performance Planning
- Performance Measuring and Monitoring
- Performance Evaluation
- Performance Reporting
- Performance Auditing/Review

**7. The Performance Management Process below lists the key process for organisational performance and each item is detailed in the main document**

- Step 1: Establish the KPA's
- Step 2: Design Strategic Objectives
- Step 3: Determine KPI's
- Step 4: Obtain baseline Figures
- Step 5: Set Target Dates
- Step 6: Determine steps/plans to achieve step 1-5
- Step 7: Provide quarterly status of the KPI's
- Step 8: Evaluate the KPI's and Targets'
- Step 9: Compilation of Scorecard report
- Step 10: Auditing Scorecard
- Step 11: Submit final report to various stakeholders

**8. Roles and Responsibilities**

<b>Designation</b>	<b>Role</b>
<ul style="list-style-type: none"> <li>• Municipal Council</li> </ul>	<ul style="list-style-type: none"> <li>• Approval and oversight</li> </ul>
<ul style="list-style-type: none"> <li>• Mayoral Committee</li> <li>• Portfolio Committees</li> </ul>	<ul style="list-style-type: none"> <li>• Oversight</li> </ul>
<ul style="list-style-type: none"> <li>• Ward Committees</li> </ul>	<ul style="list-style-type: none"> <li>• Participatory</li> </ul>
<ul style="list-style-type: none"> <li>• Municipal Manager</li> </ul>	<ul style="list-style-type: none"> <li>• Monitoring</li> </ul>
<ul style="list-style-type: none"> <li>• Performance Management (Executive Directors &amp; Managers)</li> </ul>	<ul style="list-style-type: none"> <li>• Establish, Monitor &amp; Control</li> </ul>
<ul style="list-style-type: none"> <li>• Internal Audit</li> </ul>	<ul style="list-style-type: none"> <li>• Monitor and Review</li> </ul>
<ul style="list-style-type: none"> <li>• Audit Committee</li> </ul>	<ul style="list-style-type: none"> <li>• Oversight Review</li> </ul>
<ul style="list-style-type: none"> <li>• Executive Directors and Managers</li> </ul>	<ul style="list-style-type: none"> <li>• Implementer</li> </ul>

This framework seeks to provide the basis for a structured approach to performance management within Merafong City Local Municipality

## 2. List of Acronyms

AG	: Audit General
DPLG	: Department of Provincial and Local Government
IDP	: Integrated Development Plan
KPA	: Key Performance Areas
KPI	: Key Performance Indicators
LED	: Local Economic Development
MEC	: Member of the Executive Council
MFMA	: Municipal Finance Management Act
MSA	: Municipal Systems Act
MTEF	: Medium Term Economic Framework
PMS	: Performance Management System
SALGA	: South African Local Government Association
SDBIP	: Service Delivery and Budget Implementation Plan
SO	: Strategic Objective
SMART	: Specific, Measurable, Achievable, Realistic, Time-frame
RSA	: Republic of South Africa

## 3. Definitions

### “Accounting officer”

- a) In relation to a municipality, means the municipal official referred to in section 60 of the Municipal Systems Act; or
- b) In relation to a municipal entity, means the official of the entity referred to in section 93, and include a person acting as the accounting officer.

### “Annual report”

In relation to a municipality or municipal entity, means an annual report contemplated in section 121 of the Municipal Finance Management Act.

### “Auditor-General”

Means the person appointed as Auditor-General in terms of section 193 of the Constitution, and includes a person-

- a) Acting as Auditor-General
- b) Acting in terms of a delegation by the Auditor-General; or
- c) Designated by the Auditor-General to exercise a power or perform a duty of the Auditor-General

### “Basic municipal services”

Means a municipal service that is necessary to ensure an acceptable and reasonable quality of life and which, if not provided, would endanger public health or safety of the environment.

### “Backlogs”

A backlog can be defined as quality of service/ goods that have accumulated over time that are still undelivered/ unattended/ still not produced. The backlogs in rural water, sanitation and electricity have been defined in official census figures, but vary (increase of decrease) from year to year due to migration patterns. Regardless, these backlogs are now being dealt with systematically (refer to baseline).

**“Baseline”**

The accurate and quantitative data at a stated point in time that marks the beginning of a trend or the past years performance.

**“Councillor”**

Means a member of a municipal council

**“Section 57 employee”**

Means a person employed by a municipality as a municipal manager or as a manager directly accountable to a municipal manager;

**“Employer”**

Means the municipality employing a person as a municipal manager or as a manager directly accountable to a municipal manager and as represented by the mayor, executive mayor or municipal manager as the case may be;

**“Employment contract”**

Means a contract as contemplated in Section 57 of the Municipal Systems Act;

**“External service provider”**

Means an external mechanism referred to in section 76(b) of the Municipal Systems Act; which provides a municipal service for a municipality;

**“Financial statements”**

In relation to municipality or municipal entity, means statements consisting of at least-

- a) A statement of financial position;
- b) A statement of financial performance;
- c) A cash-flow statement;
- d) Any other statements that may be prescribed; and
- e) Any notes to these statements

**“Financial year”**

Means the financial year of municipalities that end on 30 June of each year

**“Input indicator”**

Means an indicator that measures the costs, resources and time used to produce an output

**“Integrated Development Plan”**

Means a plan envisaged in section 25 of the Municipal Systems Act

**“Local community or community”**

In relation to a municipality, means that body or persons comprising –

- a) The residents of the municipality
- b) The rate payers of the municipality
- c) Any civic organisations and non-governmental, private sector or labour organizations or bodies which are involved in local affairs within the municipality

**“Mayor”**

In relation to –

- a) A municipality with an executive mayor, means the councillor elected as the executive mayor of the municipality in terms of section 55 of the Municipal Structures Act; or
- b) A municipality with a executive committee, means the councillor elected as the mayor of the municipality in terms of section 48 of that Act

**“MEC”**

Means the member of a provincial executive council

**“MEC for local government”**

Means the MEC responsible for local government in a province

**“Minister”**

Means the national Minister responsible for local government

**“Municipality”**

When referred to as –

- a) An entity, means a municipality as described in section 2; and
- b) A geographical area, means a municipal area determined in terms of the Local Government: Municipal Demarcation Act, 1998 (Act No. 27 of 1998)

**“Municipal council” or “council”**

Means a municipal council referred to in section 157(1) of the Constitution

**“Municipal entity”**

Means -

- a) A company, co-operative, trust fund or any other corporate entity established in terms of any applicable national or provincial legislation ward which operates under the ownership control of one or more municipalities, and includes, in the case of a company under such ownership control, any subsidiary of that company, a private company referred to in section 86B(1)(a); or
- b) A service utility.
- c) A multi-jurisdictional service utility

**“Municipal Finance Management Act”**

Means the Local Government: Municipal Finance Management Act, 2003, and any regulations made under that Act

**“Municipal Manager”**

Means a person appointed in terms of section 82 of the Municipal Structures Act

**“Municipal service”**

Has the meaning assigned to it in section 1 of the Municipal Systems Act

**“Municipal Structures Act”**

Means the Local Government: Municipal Structures Act. 1998 (Act 117 of 1998)

**“Municipal Systems Act”**

Means the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)

**“Outcome indicator”**

Means an indicator that measures the quality and or impact of an output on achieving a particular objective

**“Output indicator”**

Means an indicator that measures the results of activities, processes and strategies of a program in a municipality

**“Parent municipality”**

- a) In relation to a municipal entity which is a private company in respect of which effective control vests in a single municipality, means that municipality;
- b) In relation to a municipal entity which is a private company in respect of which effective control vests in two or more municipalities collectively, means of those municipalities;
- c) In relation to a municipal entity which is a service utility, means the municipality which established the entity; or
- d) In relation to a municipal entity which is a multi-jurisdictional service utility, means each municipality which is a party to the agreement establishing the service utility.

**“Private company”**

Means a company referred to in section 19 and 20 of the Companies Act, 1973 (Act No. 61 of 1973)

**“Performance agreement”**

Means an agreement as contemplated in Section 57 of the Municipal Systems Act

**“Performance Plan”**

Means a part of the performance agreement which details the performance objectives and targets that must be met and time frame within which these must be met.

**“Prescribe”**

Means prescribe by regulation or guidelines in terms of section 120 and **“prescribed”** has a corresponding meaning

**“Political office bearer”**

Means the speaker, executive mayor, mayor, deputy mayor or member of the executive committee as referred to in the Municipal Structures Act

**“Political structure”**

In relation to a municipality, means the council of the municipality or any committee or other collective structure of a municipality elected, designated or appointed in terms of a specific provision of the Municipal Structures Act

**“Resident”**

In relation to a municipality, means a person who is ordinarily resident in the municipality

**“Senior manager”**

- a) In relation to a municipality, means a manager referred to in section 56 of the Municipal Systems Act; or
- b) In relation to a municipal entity, means a manager directly accountable to the chief executive officer of the entity

**“Service authority”**

Means the power of a municipality to regulate the provision of a municipal service by a service provider

**“Service delivery agreement”**

Means an agreement between a municipality and an institution or person mentioned in section 76(b) of the Municipal Systems Act in terms of which a municipal service is provided by that institution or person, either for its own account or on behalf of the municipality

**“Service delivery and budget implementation plan”**

Means a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) of the Municipal Finance Management Act for implementing the municipality’s delivery of municipal services and its annual budget, and which must indicate –

- a) Projections for each month of -
- b) Service delivery targets and performance indicators for each quarter; and
- c) Any other matters that may be prescribed, and includes any revisions of such plan by the mayor in terms of section 54(1)(c) of the Municipal Finance Management Act

**“Service utility”**

Means a municipal entity established in terms of section 82(1)(c), a body established in terms of section 86H of the Municipal Systems Act

**“Staff”**

In relation to a municipality, means the employees of the municipality, including the municipal manager

**“the Act”**

Means the Local Government: Municipal Systems Act, 2000

## PART 2

### 1. Introduction

Performance Management is a process which measures the implementation of the organization's strategy. At Local Government level this has become an imperative, with economic development, transformation, governance, finance and service delivery being the critical elements in terms of Local Government Strategy. Performance Management provides the mechanism to measure whether targets to meet its strategic goals, set by the organization and its employees, are met. National Government has also found it necessary to institutionalize and provide legislation on the Performance Management Process for Local Government.

The Municipal Systems Act (MSA) 2000 requires municipalities to establish a performance management system. Further, the MSA and the Municipal Finance Management Act (MFMA) requires the Integrated Development Plan (IDP) to be aligned to the municipal budget and to be monitored for the performance of the budget against the IDP via the Service Delivery and the Budget Implementation Plan (SDBIP).

In addition, Regulation 7 (1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the roles of the different role players."

Performance Management, therefore, is not only relevant to the organization as a whole, but also to the Individuals employed in the organization as well as the External Service Providers and the Municipal Entities.

Given this background, it is important that a framework for Performance Management be established, implemented and monitored.

This framework therefore describes how the municipality's performance process, for the organization as a whole will be conducted, organized and managed.

## 2. Aims / Objectives of a Performance Management Framework and System

This framework aims to:

- Clarify the processes of implementing the performance management system within the framework of the Integrated Development Planning (IDP) Process.
- Clarify definitions and standards for performance management.
- Ensure compliance with the South African Legal framework.
- Demonstrate how the system will be conducted, organized, operated and managed from the planning stage up to the stages of performance review.
- Define roles and responsibilities.
- Determine the frequency of reporting.
- Promote accountability and transparency of performance management with Merafong City Local Municipality.

The objective of the framework is to create an efficient and effective Performance Management System for Merafong Municipality in order to:

- Translate the municipality's vision, mission and IDP into clear measurable outcomes, indicators and performance levels that define success and that are shared throughout the municipality and with the municipality's customers and stakeholders.
- Ensure the implementation of the plans and programmes.
- Provide a tool for assessing, managing and improving the overall health and success of business processes and systems.
- Measure development impact.
- Ensure efficient utilization of resources.
- Create a culture of best practice.
- Promote accountability.
- Include measures of quality, cost, customer service and employee alignment, motivation and skills to provide an in-depth and predictive Performance Management System.
- Assess performance of the municipality and its management employees.

### **3. Integrated Development Plan (IDP)**

An Integrated Development Plan is an inclusive and strategic plan for the development of the Municipality which links, integrates and co-ordinates plans, aligns resources and forms the framework on which annual budgets must be based. The IDP also addresses the National and Provincial Growth and Development Strategies.

An Integrated Development Plan adopted is the principal strategic instrument guiding all planning, management, investment, development and implementation decisions taking into account input from all stakeholders.

The IDP reflects

- a) The Municipal Council's vision for the long term development of the Municipality
- b) An assessment of the existing level of development
- c) The councils development strategies
- d) A spatial development framework
- e) The councils operational strategies
- f) Disaster management plans
- g) A financial plan
- h) The key performance indicators and performance targets

In terms of Section 34 of the Municipal Systems Act, 2000:

A Municipal Council:-

Must review its Integrated Development Plan –

- i. Annually in accordance with an assessment of its performance measurements
- ii. To the extent that changing circumstances so demand;

And may amend its IDP in accordance with the prescribed process.

The relationship between IDP and Performance Management is therefore legislated and regulated. The Performance Management System serves to measure the performance of the municipality on meeting its Integrated Development Plan.

#### **4. Service Delivery Budget Implementation Plan (SDBIP)**

The SDBIP gives effect to the Integrated Development Plan and budget of the Municipality. The budget gives effect to the strategic priorities of the municipality. The SDBIP therefore serves as a “contract” between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis for measuring performance in service delivery against end-of-year targets and implementing the budget. The SDBIP measures the performance on the operational plan, through the PMS.

Whilst the budget sets yearly service delivery and budget targets (revenue and expenditure per vote), it is imperative that mechanisms are able to measure performance and progress on a continuous basis. Hence the end of year targets must be based on quarterly and monthly targets, and the municipal manager must ensure that the budget is built around quarterly and monthly information.

The SDBIP and the PMS provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP and the PMS are management implementation and monitoring tools which will assist the mayor, the councilors, municipal manager, senior managers and the community in evaluating the performance of the council. A properly formulated SDBIP and PMS will ensure that the appropriate information is circulated internally and externally for purposes of monitoring the execution of the budget performance of the senior management and the achievement of the strategic objectives set by council. The SDBIP and PMS enables the municipal manager to monitor performance of senior managers, the mayor to monitor the performance of municipal manager and for the community to monitor the performance of the municipality.

#### **5. Policy and Legislative Requirements**

The constitution of S.A (1996), section 152, dealing with the objectives of local government paves the way for performance management with the requirements for an “accountable government”. The democratic values and principles in terms of section 195 (1) are also linked with the concept of Performance management, with reference to the principles of inter-alia:

- The promotion of efficient, economic and effective use of resources.
- Accountable public administration
- Transparency by providing information,
- To be responsive to the needs of the community,
- And to facilitate a culture of public service and accountability amongst staff.

The following legislations are relevant for Performance Management:

- The Constitution of the Republic of South Africa (Act 108 of 1996)
- Municipal Systems Act, (Act No. 32 of 2000).
- The Municipal Finance Management Act, (Act No. 56 of 2003).
- Municipal Planning and Performance Management Regulations, 2001
- Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Managers, 2006
- Municipal Structures Act 117 of 1998

## **6. Definition of Performance Management**

Performance Management as defined by Department of Local Government (DPLG) is a strategic approach to management, which equips leaders, managers, employees and stakeholders at different levels with a set of tools and techniques to regularly plan, continuously monitor, periodically measure and review performance of the organization in terms of indicators and targets for efficiency, effectiveness and impact. This system will therefore in turn ensure that all the leaders, managers and individuals in the municipality are held accountable for their actions which should bring about improved service delivery and value for money.

Performance management is aimed at ensuring that municipalities monitor their IDP's and continuously improve their operations and continuously improve their operations and in terms of Section 19 of the Local Government Municipal Structures Act (MSA), that they annually review their overall performance in achieving their constitutional objectives.

The Performance Management System must:

- Have appropriate indicators, including outcomes and impact, with regard to the municipality's development priorities and objectives set out in the IDP and the National KPA's.
- Have measurable targets (quarterly, if possible annually)
- Reflect baseline information
- Comment on how to improve performance
- Monitor performance
- Measure and review performance at least once a year
- Aims to improve performance
- Establish a process of regular reporting
- Provide an early warning system to identify areas of poor performance

Performance management is potentially the area of management that can make a significant contribution to organizational and individual performance. The system must be designed so it improves strategic focus and organisational effectiveness through continually seeking to improve the performance of the municipality as a whole and the individuals in it.

## **7. Organisational Performance Management Link to Individual Performance**

The performance of a municipality is integrally linked to that of staff. It is therefore important to link organisational performance to individual performance and to manage both at the same time, but separately.

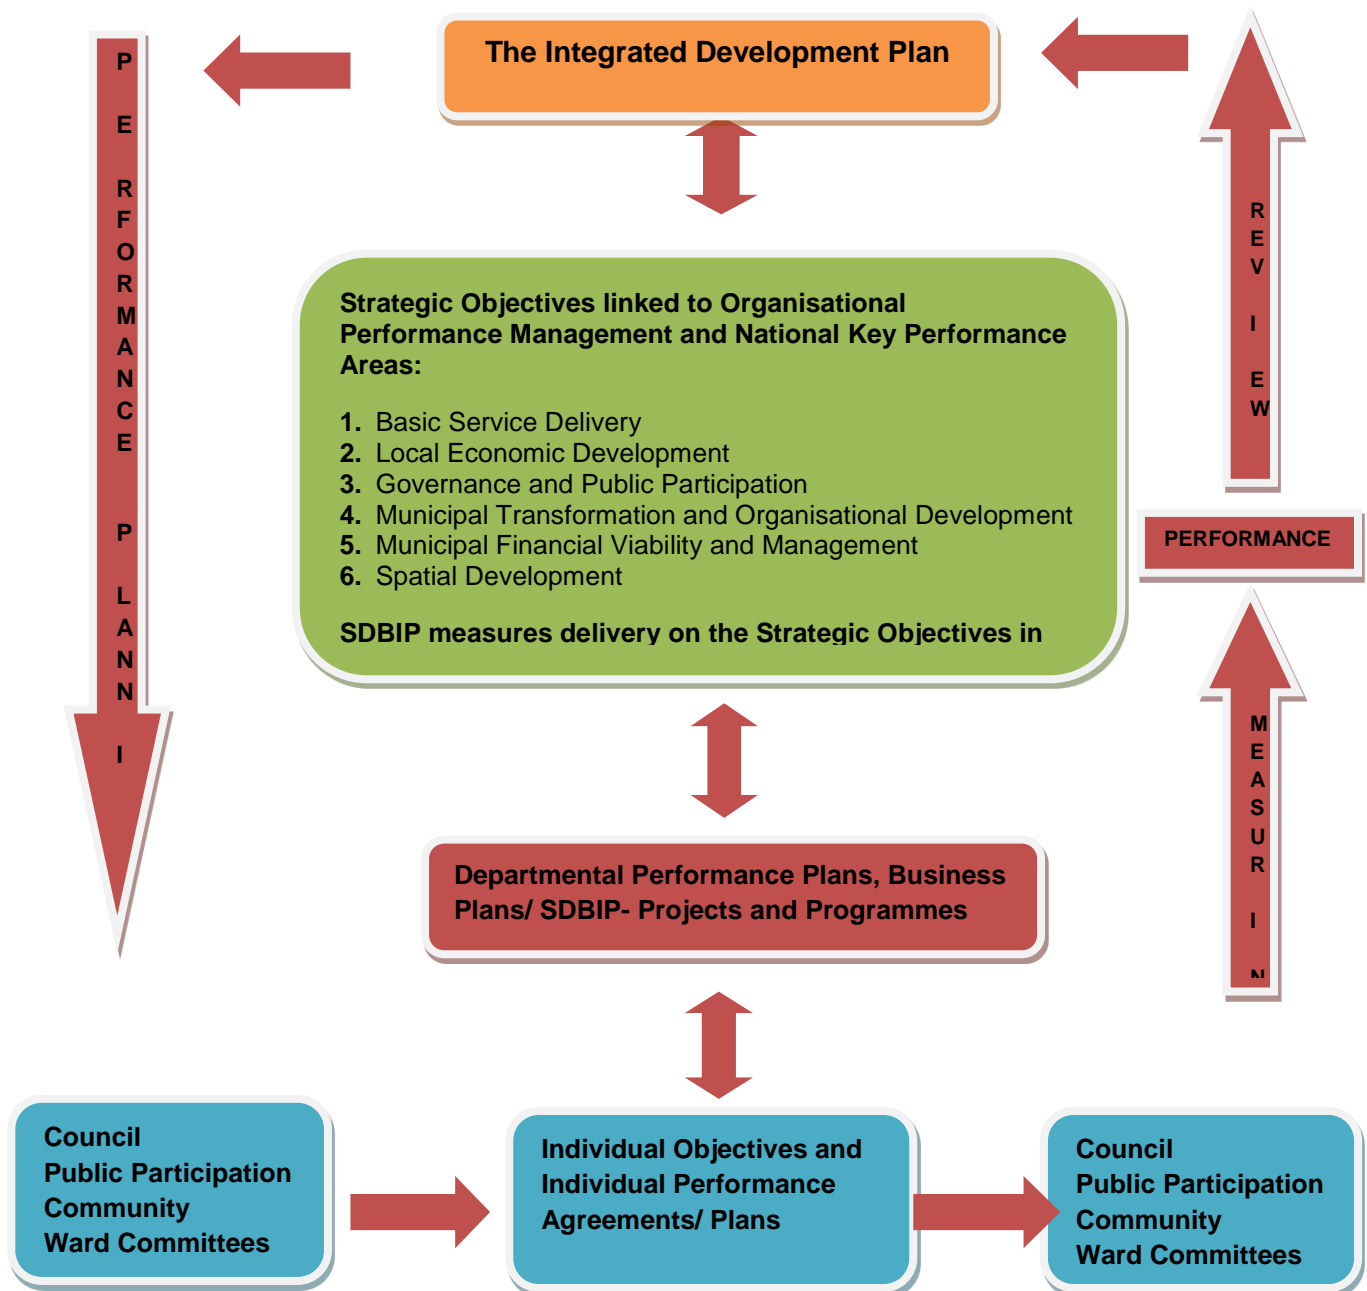

The legislative mandate for measuring individual performance is found in section 57 of the Municipal Systems Act, which requires that the Municipal Manager and Managers who report directly to the Municipal Manager, sign performance contracts, which must include performance objectives and targets. These must be practical, measurable and based on key performance indicators set out on the IDP.

Effectively, the organisational scorecard is executed by the employees of the municipality. In practice this means that the strategic organisational scorecard becomes the responsibility of the municipal manager, and the departmental scorecard is the responsibility of the executive director of the department.

The head of department's individual performance plans will flow out of the executive director's performance plan and the manager on the lower level will have a performance plan that flows out of the head of the department's performance plan. This process should then be cascaded down throughout the hierarchy of each of the department in the municipality.

Although legislation requires that the municipal manager, and managers directly accountable to the municipal manager, sign formal performance contracts, it is also a requirement that all employees have job descriptions. These must be aligned with the individual performance plan of the head of the department. In this way all employees are working towards a common goal. It is however the responsibility of the employer, to create an environment, which the employees can deliver the objectives and the targets set for them in their performance contracts and job descriptions.

The figure 1 below illustrates the link between the organisational performance management and individual performance management. Once organisational objectives and targets have been set it is then possible to cascade these down to the relevant departments and individual

This performance management policy and procedure document is concerned with planning, measuring and reporting the organisational within the Municipality. If each employee achieves his/ her performance objectives, which are linked to the department's objectives, and in turn linked to the Integrated Development Plan the Municipality will ultimately achieve its organisational performance objectives. The reporting requirements as stipulated in the Municipal System Act, the involvement of the community in setting performance indicators etc. needs to occur at an organisational performance management level. Individual performance management occurs at the level of the working relationship that exists between the employee and his/her Manager/Supervisor.

## 8. Benefits of a Performance Management System

### Organisational Performance

The Organisational Performance Management System is advantageous to a municipality as it:

- Identifies major or systematic blockages and guides future planning and developmental objectives and resource utilization in the municipality.
- Provides a mechanism for managing expectations and ensuring increased accountability between residents of a municipal area and the political and administrative components of the municipality.
- Provides early warning signals to identify problems in meeting the IDP strategies.
- Provides appropriate management information for informed decision making.

The Benefits of **Individual Performance** are to:

- Ensure alignment of individual goals and objectives with that of the organization and to coordinate efforts in order to achieve those goals.
- Understand what is expected from the incumbents, by when it is expected and to what standard is expected.
- Understand the incumbent's key areas of accountability.
- Determine whether or not performance objectives are being met.
- Make qualified decisions within the incumbent's level of competencies.
- Avail the incumbents of learning and development opportunities to competently meet their performance targets.

## 9. Key issues underpinning the success of Performance Management

In order to ensure the success of the Performance Management System, the following has been identified as areas which need emphasis.

- a. Top Management and council to drive the system.
- b. A need for clarity regarding the strategy of the Municipality so that these can be used to determine the objectives of the Municipality, each business unit and each employee.
- c. Channels of communication need to be in place.
- d. A clear understanding and appreciation of the value of having a performance measurement system.
- e. The development of employees identified through the performance management process and providing learning opportunities through the process of planning, coaching and reviewing performance.
- f. Performance management is an ongoing process not a once a year event of conducting a performance review.

## 10. The Cycle of Performance Management

### 10.1 Core Elements

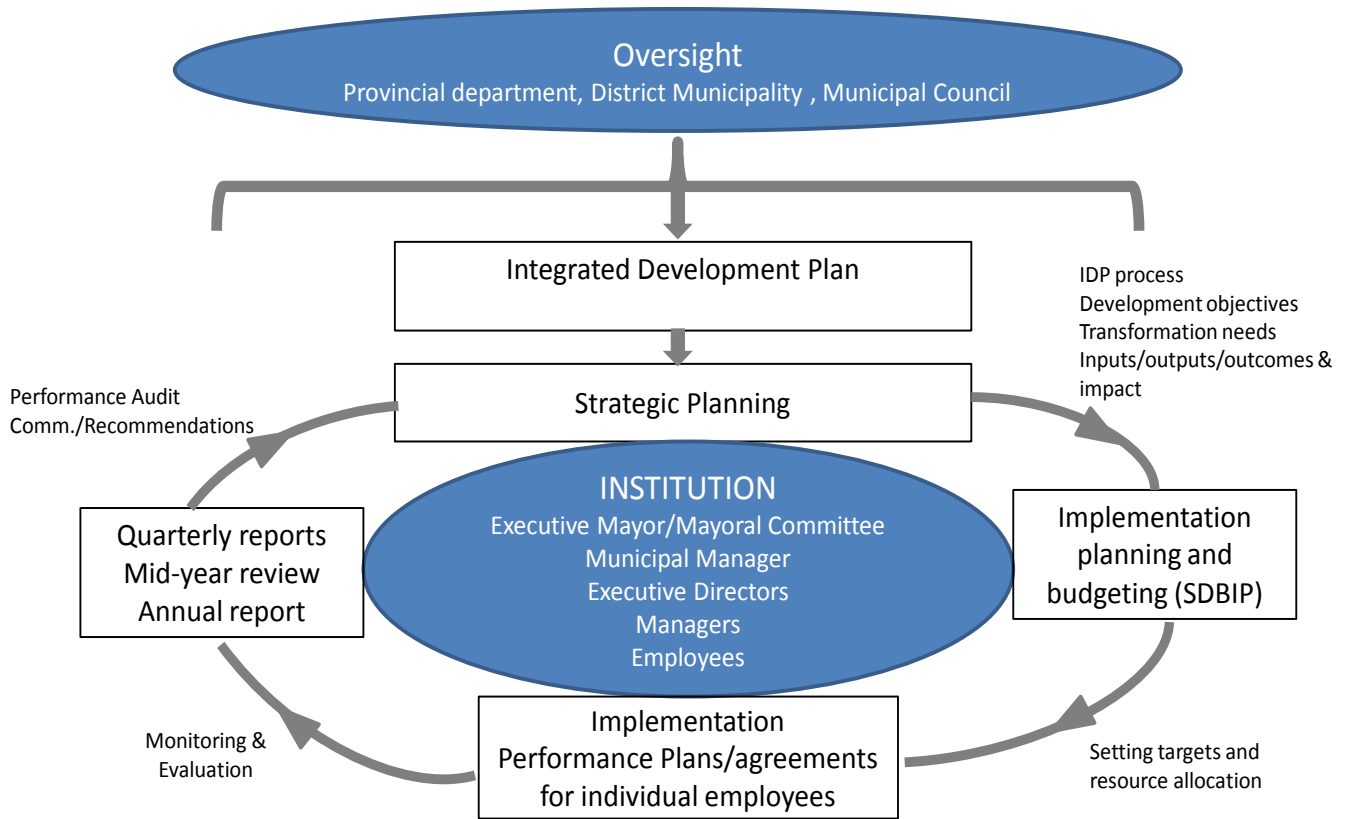

The Council's performance management system contains the following core elements, each of which is detailed in the next chapter:

- A. Performance Planning** ensures that the strategic direction of the Municipality more explicitly informs and aligns the IDP with all planning activities and resource decisions. This is the stage where Key Performance Areas and Key Performance Indicators are aligned to the IDP and national requirements, and targets are set.
  
- B. Performance Measuring and Monitoring** is an ongoing process to determine whether performance targets have been met, exceeded or not met. Projections can also be made during the year as to whether the final target and future targets will be met. It occurs during key points in a process – for example, on a quarterly and annual basis.
  
- C. Performance Evaluation** analyses why there is under-performance or what the factors were, that allowed good performance in a particular area. Where targets have not been met, the reasons for this must be examined and corrective action recommended. Evidence to support the status is also reviewed at this stage.  

An additional component is the review of the indicators to determine if they are feasible and are measuring the key areas appropriately.

A corporate analysis of performance will be undertaken by the Performance Management Unit, to examine performance across the municipality in terms of all its priorities.
  
- D. Performance Reporting** entails reporting twice a year to management, the performance audit committee, council and the public. In addition, a quarterly report is also prepared and sent to Internal Audit to be audited, prior to being sent to council and the performance audit committee.
  
- E. Performance review/auditing** is a key element of the monitoring and evaluation process. This involves verifying that the measurement mechanisms are accurate and that proper procedures are followed to evaluate and improve performance. According to section 45, of the Systems Act, results of the performance measurement must be audited as part of the municipality's internal auditing process and annually be the Auditor-General. The Municipality has therefore established a framework and structures to evaluate the effectiveness of the municipality's internal performance measurement control systems.

The figure 2 below reflects the **Performance Management Cycle**

**Figure 2**

## 10.2 PERFORMANCE PLANNING

The planning phase entails setting

- a) Key Performance Areas (KPA's)
- b) Strategic Objectives
- c) Key Performance Indicators (KPI's)
- d) Baselines
- e) Targets

### 10.2.1 Key Performance Areas (KPA's)

A Key Performance Area is defined as a broad focus area, or group of objectives within the Integrated Development Plan, for example; the provision of water, sanitation and roads can be grouped under a Key Performance Area of "infrastructural development".

Merafong City Local Municipality has adopted **5 National KPA's** as contained in the 5 year Local Government Strategic Agenda as the core KPA's in its organizational performance scorecard.

- a. To provide Basic Services and Infrastructure Development
- b. To promote Public Participation and Good Governance
- c. To ensure Institutional Development and Transformation
- d. To ensure Municipal Financial Viability
- e. To ensure Local Economic Development

## 10.2.2 Strategic Objectives

Within each key performance area a number of Strategic Objectives have been developed. Strategic Objectives are medium to long term (possibly 3-5 years) development issues which will be addressed by the municipality.

Table 1 shows an extract of the Organizational Performance Scorecard which reflects the Key Performance Areas and the linkages to the Strategic Objectives from the IDP.

<b>TABLE 1</b>	
<b>National Key Performance Area</b>	<b>Strategic Objectives</b>
Service Delivery and Infrastructure Development	Eradicate backlogs in order to improve access to service delivery and ensure proper operations and maintenance
	Provide assessment of all critical services identified in the municipality
Public participation and Good Governance	Promote a culture of participatory and good governance
	Indicate availability, functionality and status of structures within the municipality
	Indicate the availability and status of operational systems such as Risk analysis, fraud prevention plan, communication strategy, stakeholder mobilization strategy and public participation strategy
Institutional Development and Transformation	Improve organisational cohesion and effectiveness
	Indicate availability and status with regard to Information technology, organisational structure, skills development plan, monitoring, evaluation and reporting processes and systems
Financial Viability	Improve overall financial management by developing and implementing appropriate financial management policies, procedure and systems.
	Sound financial management and reporting
	Budget strategically and sustainably
	Grow and diversify our revenue
	Value for money expenditure
Local Economic Development	Create an environment that promotes development of the local economy and facilitate job creation
	Create economic opportunities for arts, culture and heritage
	Promote sport and recreation within the city

### 10.2.3 Key Performance Indicators (KPI's)

Key Performance Indicators are measurements that indicate whether progress is being made in achieving the Strategic objectives. Indicators are important as they:

- a) Provide a common framework for gathering data for measurements and reporting.
- b) Translate complex concepts into simple operational measurable variables.
- c) Enable the review of goals and objectives.
- d) Help provide feedback to the municipality and staff.
- e) Identify the gaps between IDP strategies and the operational plans of the various departments.

#### **Setting Key Performance Indicators:**

The following **SMART** criteria must be used for the setting of indicators and targets:

**S** – Specific

**M** – Measurable

**A** – Achievable

**R** – Realistic

**T** – Time-framed

*(Details of the meaning of the above can be found under the performance targets)*

Key Performance Information concepts should also be considered when indicators are set:

- a) **Input Indicators:** all the resources that contribute to the production and delivery of outputs. Inputs are “what we use to do work”. They include finances, personnel, equipment and buildings.
- b) **Activity Indicators:** the processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe “what we do”.
- c) **Output Indicators:** the final products, or goods and services produced for delivery. Outputs may be defined as “what we produce or deliver”.
- d) **Outcome Indicators:** the medium-term results for specific beneficiaries that are the consequences of achieving specific outputs. Outcomes should relate clearly to an institution’s strategic goals and objectives set out in its plans. Outcomes are “what we wish to achieve”.
- e) **Impact Indicators:** the results of achieving specific outcomes, such as reducing poverty and creating jobs.

## TYPES OF INDICATORS

a) **Direct Indicators** – Data gathered mainly by management information systems viz.,

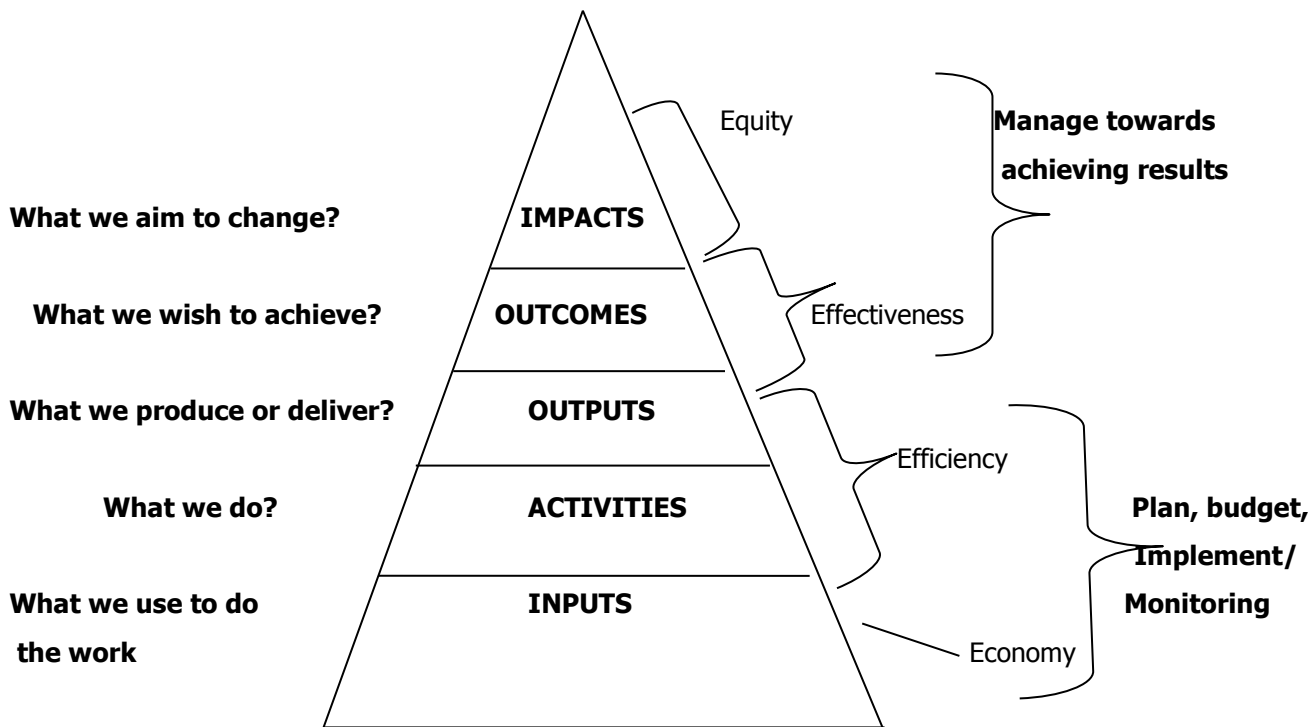

- Quantity
- Quality
- Cost/ Price
- Timeliness
- Start and end times
- Distribution
- Adequacy
- Accessibility

b) **Opinion-based indicators** – Data gathered through surveys

c) **Relationship indicators** – Calculated using a combination of direct indicators and other data

The following illustration reflects the relationship between the core performance information concepts.

**Figure 3: Key performance information concept**

In setting indicators, the following aspects must also be considered:

- The key priorities and objectives set in the IDP, which have been determined during the public participation process at ward committees.

- The activities and processes identified in the IDP for achieving the developmental objectives as well as the earmarked resources.
- Whether data is available for the measurement of the KPI's.
- Whether measurement tools to measure the performance of the indicators are available or can be developed.
- In the event that measurement tools do not exist, then it is advisable that a KPI be set which would measure the design and implementation of such a system. Once the measurement tool has been implemented, then the KPI measuring the output from the tool can then be included in the scorecard.
- The cost involved in setting up measurement tools needs to be considered.
- The time frame for the implementation of measurement tools is also important.
- It is important that the responsibility for the KPI needs to be allocated to the appropriate person who will be required to measure the output/outcome on the KPI's.

### **Incorporating the General Key Performance Indicators**

The following general key performance indicators are prescribed in Section 10 of the Municipal Planning and Performance Management Regulations, 2001 and must be reported on annually:

- The percentage of households with access to basic level of water, sanitation, electricity and solid waste removal;
- The percentage of a municipality's capital budget actually spent on capital projects identified for a particular financial year in terms of the municipality's integrated development plan;
- The number of jobs created through municipality's local economic development initiatives including capital projects;
- The number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan;
- The percentage of a municipality's budget actually spent on implementing its workplace skills plan; and
- Financial viability as expressed by ratios that measure debt coverage, outstanding service debtors to revenue, and cost coverage

#### 10.2.4 Baseline

A baseline can be defined as an accurate and quantitative data, at a stated point in time which marks the beginning of a trend. In the Organisational Scorecard of Merafong Municipality, the baseline figures are retrieved from the status column as at the end of the previous financial year. Organisational Performance is therefore tracked from the baseline figure obtained from the previous year to the target in the New Year.

If a baseline does not exist in the previous year, this must be indicated as no baseline in place. After the end of the period, a baseline will be available for the following year.

Table 3 reflects the organisational scorecard with Plans 1 to 4 indicating the baseline figures from the previous year.

#### 10.2.5 Target

Once the KPI's are developed, the municipality can then set targets (whether in terms of the MSA or MFMA). The targets must be quantified in terms of number/ figures/ time etc.

Regulation 12 of the Local Government: Municipal Planning and Performance Management Regulation 2001, states the following:

"In setting the targets, a Municipality develops a five year implementation programme (the life of the Municipality – IDP) to address the relevant National and Provincial service delivery targets in relation to the Municipal targets. This 5 year implementation programme contains annual targets which are broken down into quarterly targets as required by the MFMA. The targets must be "SMART" as explained in the guideline.

In unpacking the SMART acronym, the following aspects are highlighted:

- **Specific**

Is the target specific or vague? By being specific, the municipality commits itself to a standard of delivery. E.g. by stating "1000 standpipes will be constructed" the municipality is committing to a specific target opposed to a statement "to provide people with water".

Further, the municipality needs to be absolutely sure what element of objective it wants to measure e.g. the quality of water being provided or the number of stands pipes being constructed. Therefore, the KPI's which needs to be measured should be identified and prioritized and specific targets set.

Care should be taken not to mix the different targets in one KPI measurement, as it will make measurement of it difficult.

- **Measurable**

In deciding what specific part of the KPI a municipality wants to measure it must decide:

- If the municipality can measure the targets set (example, does it have the staff, funding, information/ data to do this)
- If the municipality can provide proof (information/ data) that the target set was actually achievable.

- If a municipality cannot measure a target for any reason, it should amend or remove it.
- If the municipality wants to measure any target, it must decide on the most appropriate manner for obtaining such proof, and whether it is justified to employ additional staff or incur additional expenditure on providing the proof that a specific target was achieved?
- Also, there should be a purpose or reason for measuring a target, e.g. there is no reason to measure the reduction in the incidences of cholera if the Municipality has no clear strategy and objective in place to address this aspect and is not doing anything to reduce the impact.
- Measure against backlogs or and baseline.

- **Attainable/ Achievable**

Can the municipality meet the target set? Does it have the human, financial, infrastructure and other resources to deliver on the target set?

In determining if a target is attainable, the municipality must determine if it has a total executive control over the objective, KPI and Targets set. E.g. provision of education is a national and provincial Government function. Thus, developing a KPI of "constructing schools" and setting a target of "building 5 schools" would not be attainable as it falls outside the control of the municipality (operationally)

Further, the municipality needs to determine/ identify whether there are real risks (political, financial, human, natural etc) involved, in firstly setting the target, and secondly meeting it. (This relates to the realistic element of the target as well)

An Attainable KPI in this area would be more process and outcome orientated. For example, an attainable indicator for a municipality in a non-core function would be to liaise with the Department of Education and Culture to present information on future plans with an associated target of budget alignment in 2015/2016 to take place.

- **Realistic**

By setting a realistic target the municipality must take its capacity into consideration. There is no point in setting a target of "5000 stand pipes in one year" if the municipality only has the capacity (human, infrastructural and financial) to deliver "1000 stand pipes in one year."

Similarly in a non-core-function, if a municipality does not have the capacity and the responsibility to build a school, the targets set should reflect the aim of the municipality to liaise and lobby with the Department of Education. By setting the unrealistic targets, the municipality will only set itself up for failure.

- **Time related**

Quarterly and annual targets are set, it must relate to a timeframe. These timeframes should in themselves be specific, attainable and realistic. Time frames are not necessarily related to a financial year, but could span over several years. Applicable targets dates for each KPI must be determined.

However, a municipality should annually monitor its achievements towards the target and review/adapt if required. If a target cannot be met in one year, extend the time frame or reduce the target so that it can be met in the time frame specified. Consequently, a "SMART" target could be to build 1000 stand within the financial year (time related).

Note that for IDP purposes a five year target needs to be determined using the same criteria. The quarterly and annual target then feeds into the five year, which reduces each year.

### 10.3 PERFORMANCE MEASURING AND MONITORING

**The next process in the cycle of performance is Measuring and Monitoring performance. This entails determining the progress on meeting the targets on a quarterly and annual basis.**

**The following needs to be considered:**

- a) A review of the organizational performance must take place on a monthly, quarterly, half-yearly and annually.
- b) The review entails determining the position as at the end of every quarter, for the KPI's and targets in place.
- c) Information will be obtained from each plan owner on the status of the KPI targets, one month after the end of the quarter, except for the second quarter which ends in December, where information is required by the 2<sup>nd</sup> week in January due to legislative requirements. The MFMA requires that the accounting officer must by the 25<sup>th</sup> January each year, assesses the performance of the municipality for the first half of the financial year.
- d) This quarterly review serves as an early warning indicator in areas of under-performance, which provides management an opportunity to take the necessary steps to improve performance by year end.
- e) The other information required is to be completed two columns which are required to be completed are the means of verification and the measures taken to improved performance.
- f) The means of verification refers to the source of the information which can be referred to by the auditors to verify the status.
- g) The measures taken to improve performance are required by the Systems Act S46 (1) (c) and must be reported on every quarter. Note that this is required for measures which have already taken place within the financial year, or which is planned to take place. It is not only expected to be completed for areas where there is under-performance, but for all KPI's.
- h) Merafong City Local municipality is currently measuring performance through the electronic performance management systems (QPR) where data and evidence are captured electronically and performance is reflected based on the information captured.
- i) Another measuring and monitoring tool is the community participation process which is dealt with later in the document.

## 10.4 PERFORMANCE EVALUATION

**The next step in the process is the evaluation of performance which takes into consideration various factors.**

1. Note that substantive evidence supporting the status at the end of each quarter, needs to be retained by the plan owners for audit purposes.
2. A quarterly audit on the organizational scorecard will take place.
3. During the quarterly reviews, action will be recommended to management to review their performance for improvement.
4. Quarterly reports are sent to the Performance Audit Committee and the Council.
5. Changes to KPI's and 5 year targets need to be carefully considered, as these require council approval.
6. The reason for this is that the original KPI's and 5 year targets would have been published with the IDP, which would have been approved and adopted by council at the beginning of the financial year.
7. An evaluation of the validity and suitability of the Key Performance Indicator is undertaken and recommendations must be made for any changes.
8. The Annual performance report is also audited by the Auditor General and is included in the Annual Report.
9. An evaluation of the annual and five targets is undertaken to determine whether the targets are overstated or understated. These changes need to be considered.
10. In addition, an analysis is undertaken of whether the Municipality is performing adequately or under-performing.

## 10.5 PERFORMANCE REPORTING

Stakeholders are becoming increasingly interested in how well municipalities are performing. The emphasis is shifting from narrow financial reporting to more comprehensive reporting on organisational performance. The compilation of performance reports is management's means of reporting back to the organisation's stakeholders on the economic and efficient utilization of resources as well as the effective performance of functions within an organization.

### 10.5.1 REPORTING ON THE ELECTRONIC – PERFORMANCE MANAGEMENT SYSTEM (Refer to Viewer user Guide)

Merafong City Local Municipality currently is measuring performance through the electronic performance management system where data and evidence are captured and electronically evaluated.

- A section prepares monthly reports.
- After being signed off by the Sectional Manager, the report is submitted to the Executive Director for verification and recommendation.
- When the Executive Director is satisfied with the report, he/she will send it to the office of Municipal Manager.
- The Municipal Manager signs it off and the report will be tabled before the Section 80 Committee.

- The Manager captures data on the QPR System and the scanned evidence for supporting the captured data on the 10<sup>th</sup> of each month.
- The Executive Director has to sign off data electronically to the PMS Section after ensuring that all the data captured is correct.
- If there is data not verified on the QPR system, a question mark will be visible next to that KPA.
- 

### Reporting on the Electronic System (Validating Data)

Your manager will be required to sign-off your performance. Once you have loaded your evidence and captured your data, a question mark (?) will be displayed in front of the data. This indicates that this information still needs to be validated and signed off.

The screenshot shows the QPR system interface with a table titled "Values - # Houses Completed (Measure)". A red arrow points to a question mark icon in the "Completed" column for the month of 7/2011. The table contains the following data:

Month	Performance (%)	Baseline / Benchmark	Comments	Completed	Corrective Measures	GFS Classification	Reasons for Deviation	Type of Indicator	Above Expectation (%)	Actual	Actual - YTD	Alignment	Fully Effective (%)
7 / 2011	62.11	884.00	Slow construction delivery & delays in beneficiary approvals.	? 59.00	Adjusted delivery programme submitted by contractors & regular follow-ups with province for approvals.	1212	Slow construction delivery & delays in beneficiary approvals.	Output	92.50	59.00	59.00	NO 8	85.00
8 / 2011	47.97	884.00	Slow construction delivery & delays in beneficiary approvals.	? 59.00	Adjusted delivery programme submitted by contractors & regular follow-ups with province for approvals.	1212	Slow construction delivery & delays in beneficiary approvals.	Output	92.50	59.00	118.00	NO 8	85.00
9 / 2011	44.50	884.00	Slow construction delivery & delays in beneficiary approvals.	? 60.00	Adjusted delivery programme submitted by contractors & regular follow-ups with province for approvals.	1212	Slow construction delivery & delays in beneficiary approvals.	Output	92.50	60.00	178.00	NO 8	85.00
10 / 2011	57.63	884.00	Slow construction delivery & delays in beneficiary approvals.	? 158.00	Adjusted delivery programme submitted by contractors & regular follow-ups with province for approvals.	1212	Slow construction delivery & delays in beneficiary approvals.	Output	92.50	158.00	336.00	NO 8	85.00

Figure 2.10 – Measure View: Values

In order to approve or disapprove the data, click on the question mark. The following window will open.

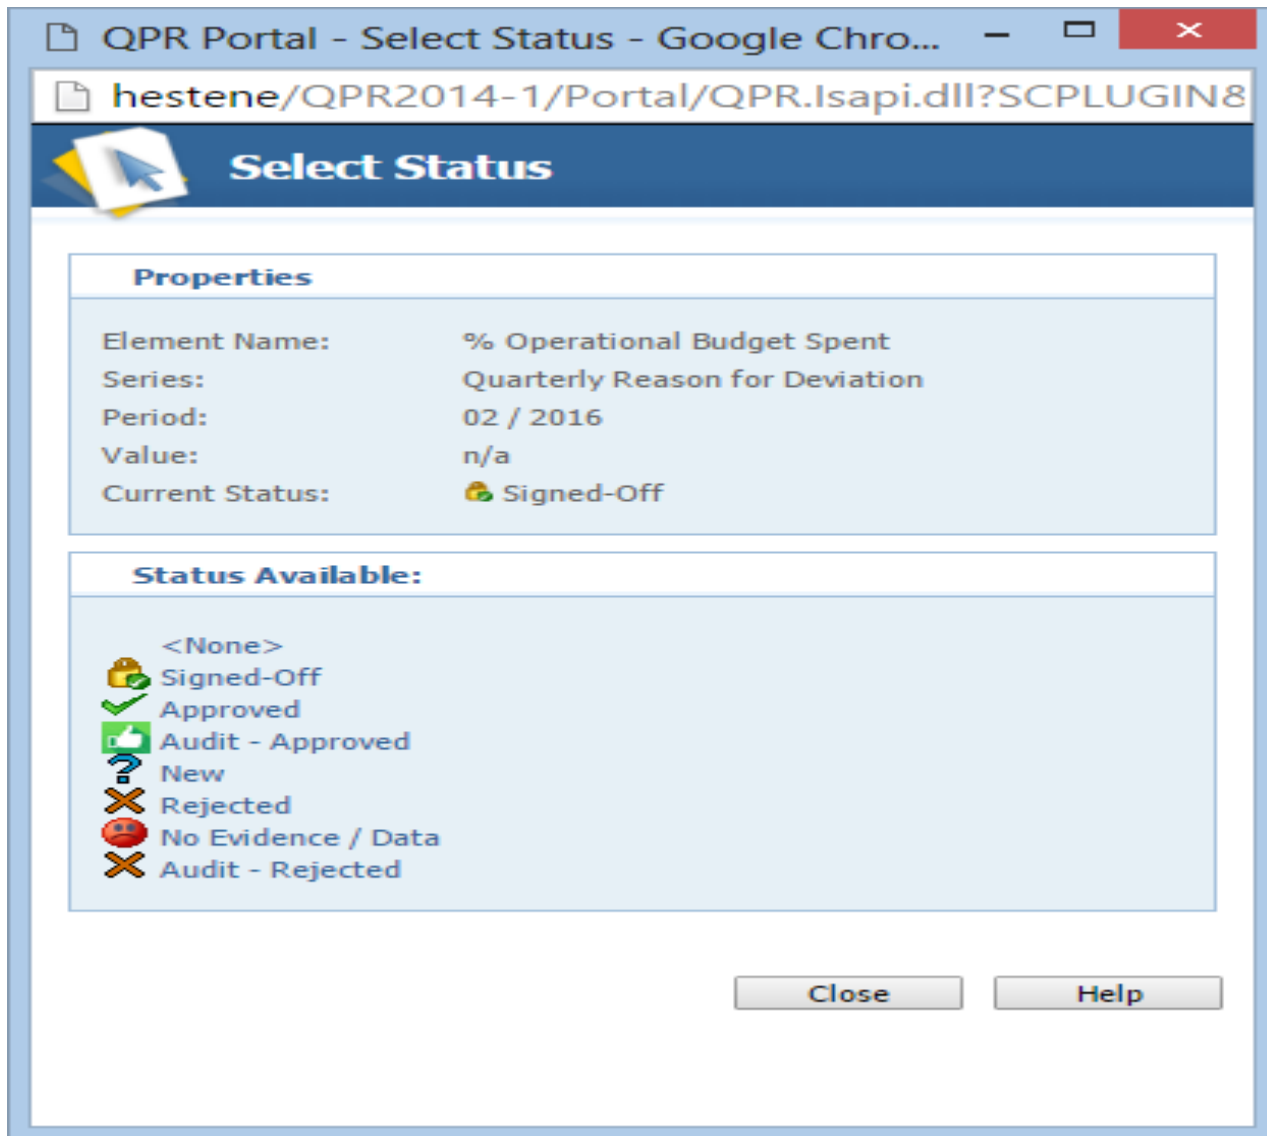

Figure 2.11 – Status Update

Click on the appropriate option, Approve or disapprove. As soon as a status is selected, click on close. You will notice that the question mark  will be replaced with either a  or a .

If the data is approved, it will be locked in the system and nobody will be able to change the information, however if the data is disapproved the person responsible to capture the data will be able to update the information and re-submit it.

## ROLES AND RESPONSIBILITIES OF QPR SYSTEM (E-PMS) (Refer to Viewer User Guide)

- QPR measures the implementation of IDP and on a monthly basis.
- After the development of SDBIP and approval by the Executive Mayor, Section 57 Managers scorecard will be built on the QPR system which will be aligned to the departmental scorecard and that will also be aligned to the organizational scorecard.
- The elements belonging to the scorecard are arranged hierarchically.
- The indicator on the bottom of the element displays the elements' performance.
- At the end of all the processes, the COO's office verifies the data and evidence captured on the system if it is correct and accurate.
- The PMS office will submit the performance report to the Municipal manager, who in turn will submit it to council for approval.

### An overview of performance reports required by municipalities

Report Type	Description
<b>Monthly budget statements</b>	<p>Section 71 of the MFMA requires monthly reporting within ten days after the end of each month. The statement must include:</p> <ul style="list-style-type: none"> <li>• A projection of the relevant municipality's revenue and expenditure for the rest of the financial year; as well as</li> <li>• Information stating the financial situation of each municipal entity, if any.</li> </ul>
<b>Quarterly IDP and SDBIP Reporting</b>	<p>The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets set in the budget and IDP. It determines the performance agreements for the municipal manager and all top managers, whose performance can then be monitored through section 71 monthly reports, and evaluated through the annual report process.</p> <p>The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of section 71(1)(a) and (e). For example, if there is lower than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise its spending downwards to ensure that it does not borrow more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue-collection capacity if the municipality wants to maintain its levels of service delivery and expenditure.</p> <p>Section 1 of the MFMA, Act 56 of 2003 states that the SDBIP as a detailed plan approved by the mayor of a municipality in terms of service delivery should make projections for each month of the revenue to be collected, by source as well as the operational and capital expenditure by vote. The service delivery targets and performance indicators need to be reported on quarterly (MFMA 2003)</p>
<b>Mid-year budget and DPLG report</b>	<p>Section 72 of the MFMA requires the accounting officer to prepare and submit a report on the performance of the municipality during the first half of the financial year. The report must be submitted to the mayor, National Treasury as well as the relevant Provincial Treasury. As with all other reports this is a crucial report for the council to consider mid-year performance and what adjustments should be made if necessary.</p>
<b>Performance report</b>	<p>Section 46 of the Municipal Systems Act states that a municipality must prepare</p>

	<p>for each financial year, a performance report that reflects the following:</p> <ul style="list-style-type: none"> <li>• The performance of the municipality and of each external service provided during that financial year;</li> <li>• A comparison of the performances referred to in the above paragraph with targets set for and performances in the previous financial year; and</li> <li>• Measures to be taken to improve on the performance. The performance report must be submitted at the end of the financial year and will be made public as part of the annual report in terms of chapter 12 of the MFMA. The publication thereof will also afford the public the opportunity to judge the performance of the municipality against the targets set in the various planning instruments.</li> </ul>
<p><b>Annual Report</b></p>	<p>Every municipality and every municipal entity under the municipality's control is required by Section 121 to prepare an annual report for each financial year, which must include:</p> <ul style="list-style-type: none"> <li>• The annual financial statements of the municipality or municipal entity as submitted to the Auditor General for audit (and, if applicable, consolidated annual financial statements);</li> <li>• The Auditor-General's audit report on the financial statements;</li> <li>• An assessment by the accounting officer of any arrears on municipal taxes and service charges;</li> <li>• Particulars of any corrective action taken or to be taken in response to issues raised in the audit reports;</li> <li>• Any explanations that may be necessary to clarify issues in connection with the financial statements;</li> <li>• Any information as determined by the municipality, or, in the case of a municipal entity, the entity or its parent municipality;</li> <li>• Any recommendations of the municipality's audit committee, or, in the case of a municipal entity, the audit committee of the entity or of its parent municipality;</li> <li>• An assessment by the accounting officer of the municipality's performance against the measurable performance objectives for revenue collection and for each vote in the municipality's approved budget for the relevant financial year;</li> <li>• An assessment by the accounting officer of the municipality's performance against the entity's performance against any measurable performance objectives set in terms of the service delivery agreement or other agreement between the entity and its parent municipality;</li> <li>• The annual performance report prepared by a municipality; and</li> <li>• Any other information as may be prescribed.</li> </ul> <p>Section 127 prescribes the submission and tabling of annual reports. In terms of this section:</p> <ol style="list-style-type: none"> <li>1. The accounting officer of a municipal entity must, within six months after the end of a financial year, submit the entity's annual report for that financial year to the municipal manager of its parent municipality.</li> <li>2. The Mayor of a municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality and any municipal entity under the municipality's sole or shared control.</li> <li>3. If the Mayor, for whatever reason, is unable to table in the council the annual report of the municipality, or the annual report of any municipal</li> </ol>

	<p>entity under the municipality's sole or shared control, within seven after the end of the financial year to which the reports relates, the mayor must:</p> <ul style="list-style-type: none"> <li>a) Submit to the council a written explanation setting out the reasons for the delay, together with any components of the annual report that are ready; and</li> <li>b) Submit to the council the outstanding annual report or the outstanding components of the annual report as soon as may be possible.</li> </ul>
--	--

<p><b>Oversight Report</b></p>	<p>The council of a municipality must consider the municipality's annual report (and that of any municipal entity under the municipality's control), and in terms of Section 129, within two months from the date of tabling of the annual report, must adopt an oversight report containing the council's comments, which must include a statement whether the council:</p> <ul style="list-style-type: none"> <li>a) Has approved the annual report with or without reservations;</li> <li>b) Has rejected the annual report; or</li> <li>c) Has referred the annual report back for revision of those components that can be revised.</li> </ul> <p>In terms of Section 132, the following documents must be submitted by the accounting officer to the provincial legislature within seven days after the municipal council has adopted the relevant oversight report:</p> <ul style="list-style-type: none"> <li>a) The annual report (or any components thereof) of each municipality and each municipal entity in the province; and</li> <li>b) All oversight reports adopted on those annual reports. It is important to note that the oversight committee working with these reports should be chaired by the opposition party.</li> </ul>
--------------------------------	---

**Table 6: Reporting Procedures**

<b>TIME-FRAME</b>	<b>MSA/ MFMA REPORTING ON PMS</b>	<b>SECTION</b>
QUARTERLY REPORTING	<ul style="list-style-type: none"> <li>• The Performance Management Section collates the information and draft the organisational scorecard, which is submitted to Internal Audit.</li> <li>• The Internal Auditors (IA) must submit quarterly audited reports to the Municipal Manager and to the Performance Audit Committee.</li> <li>• The Municipal Manager submits the reports to the council.</li> </ul>	MSA Regulation 14(1)(c)
BI – ANNUAL REPORTING	<ul style="list-style-type: none"> <li>• The Performance Audit Committee must review the PMS and make recommendations to council.</li> <li>• The Performance Audit Committee must submit at least twice during the year a report to council.</li> <li>• The Municipality must report to Council at least twice a year.</li> <li>• The Accounting officer must by 25 January of each year assess the performance of the municipality and submit an report to the Mayor, National Treasury and the relevant Provincial Treasury.</li> </ul>	MSA Regulation 14(4)(a)  Regulation 14(4)(a)  Regulation 13(2)(a)  MFMA S 72

ANNUAL REPORTING	<ul style="list-style-type: none"> <li>• The annual report of a municipality must include the annual performance report and any recommendations of the municipality's audit committee.</li> </ul>	MFMA S121(3)(c)(j) & MSA S46
	<ul style="list-style-type: none"> <li>• The accounting officer of a municipality must submit the performance report to the Auditor- General for auditing within two months after the end of the financial year to which that report relate.</li> </ul>	MFMA S126 1(a)
	<ul style="list-style-type: none"> <li>• The Auditor-General must audit the performance report and submit the report to the accounting officer within three months of receipt of the performance report.</li> </ul>	MFMA S126(3)(a)(b)
	<ul style="list-style-type: none"> <li>• The Mayor of a Municipality must, within seven months after the end of a financial year, table in the municipal council the annual report of the municipality.</li> </ul>	MFMA S127(2)
	<ul style="list-style-type: none"> <li>• The Auditor-General may submit the performance report and audit report of a municipality directly to the municipal council, the National Treasury, the relevant provincial treasury, the MEC responsible for local government in the province and any prescribed organ of the state.</li> </ul>	MFMA S127(4)(a)
	<ul style="list-style-type: none"> <li>• Immediately after an annual report is tabled in the council, the accounting officer of the municipality must submit the annual report to the Auditor-General, the relevant provincial treasury and the provincial department responsible for local government in the province.</li> </ul>	MFMA S127(5)(b)
	<ul style="list-style-type: none"> <li>• The council of the municipality must consider the annual report by no later than two months from the date on which the annual report was tabled, adopt an oversight report containing council's comments on the annual report.</li> </ul>	MFMA S129(1)
	<ul style="list-style-type: none"> <li>• The meetings of a municipal council at which an annual report is to be discussed or at which decisions concerning an annual report are to be taken, must be open to the public and any organ of the state.</li> </ul>	MFMA S130(1)
	<ul style="list-style-type: none"> <li>• The Cabinet member responsible for local government must annually report to Parliament on actions taken by the MECs for local government to address issues raised by the Auditor-General.</li> </ul>	MFMA S134

## 10.6 PERFORMANCE REVIEW/ AUDITING

### Internal auditing of performance measurements

#### Regulation 14(1)

- a) A municipality must develop and implement mechanisms, systems and processes for auditing the results of performance measurements as part of its internal auditing processes.
- b) Any auditing in terms of paragraph (a) must include assessments of the following:
  - i. The functionality of the municipality's performance management system;
  - ii. Whether the municipality's performance management system complies with the Act; and
  - iii. The extent to which the municipality's performance measurements are reliable in measuring performance of municipalities on indicators referred to in regulation 9 and 10
- c) A municipality's internal auditors must –
  - i. On a continuous basis audit the performance measurements of the municipality; and
  - ii. Submit quarterly reports on their audits to the municipal manager and the performance audit committee referred to in sub regulation (2).

**PHASES OF PERFORMANCE MANAGEMENT**

<b>Phase</b>	<b>Organizational Activity</b>	<b>Individual Activity</b>	<b>Time Frame</b>	<b>Responsibility</b>
Planning <b>(Step 1)</b>	Approve PMS time table in accordance with PMS framework and process plan	Revise time table	July	Municipal Manager
Monitor, Measure & Review <b>(Steps 2, 3 &amp; 4)</b>	- Monthly monitoring  - Quarterly Reviews      Annual performance reports	Quarterly reviews	Monthly  <b>Quarter 1</b> July- Sep.  <b>Quarter 2</b> Oct – Dec  <b>Quarter 3</b> Jan – Mar  <b>Quarter 4</b> Apr – Jun	Municipal Manager Senior Managers  Municipal Manager Performance Evaluation Panel  Municipal Manager Performance Evaluation Panel  Municipal Manager & Senior Management  Performance Evaluation Panel
		Annual Performance Appraisal	January	Mayor Municipal Manager Senior Managers
		Reward and recognition	January	Mayor Municipal Manager Senior Managers

	Organizational Performance indicators review and targets	-Review performance Charters - Conclude Performance Agreements	July	Municipal Manager Senior Managers
	Organizational performance public consultation	Quarterly	September December March June	Mayor Municipal Manager IDP Manager
Reporting <b>(Step 5)</b>	Quarterly reports		September December March June	IDP /PMS Senior Managers Internal Audit
	Bi-annual reports		December June	Council Performance Audit Committee
	Annual report	Annual staff Performance report	January	Council Performance Audit Committee

Auditing/ Quality control  <b>(Step 6)</b>	Auditing of performance reports	Quarterly assessments	September December March June	Internal Audit
	Establishment and functioning of Audit Committee	Audit committee reports	Quarterly	Municipal Manager
Improvement  <b>(Step 7)</b>	Performance Improvement plans	Departmental Improvement Plans	March	Senior Managers All Departments

## 11. The Performance Audit Committee

Regulation 14 of the Municipal Planning and Performance Regulations, 2001, provides direction on performance audit committees.

- The performance audit committee should comprise of a minimum of three (3) members, of which the majority may not be directly involved in the municipality's affairs. (i.e. not an official or councilor).
- At least one (1) member must have experience in performance management.
- The performance audit committee must meet at least twice during the financial year.
- The committee must review the quarterly reports, review the performance management system and make recommendation to council.

## 12. Roles and Responsibilities

(As per the Municipal Systems Act, 2000 and the Municipal Planning and Performance Regulations, 2001)

<b>Lines of Accountability</b>	<b>Review Role / Inputs</b>
Managers, Executive Directors and Municipal Manager	Review performance of employees reporting directly to them (monthly)
Manager(s)	Review performance of their respective Functional areas (monthly)
Section 80 Committees and Mayoral committee	Manage and review performance (on organizational priorities) of Sections and functions of their portfolio(s) (monthly)
Executive Directors	Review performance constantly by monthly reporting
Mayoral Committee	Review performance of the Administration (annually)
Council	Review the performance of the Municipal Council, its Committees and The Administration (annually)
The Public Representatives	Review the performance of the Municipality and public representatives (Councillors) (annually)

<b>DESIGNATION</b>	<b>ROLE</b>	<b>RESPONSIBILITIES</b>
<b>Municipal Council</b>	<b>Approval and Oversight</b>	<ul style="list-style-type: none"> <li>• Adopts the PMS framework</li> <li>• Adopts Priorities and objectives of the IDP</li> <li>• Adopts Municipality's corporate strategy that includes KPI and Performance targets</li> <li>• Adopts the SDBIPs</li> <li>• Approves the review of KPI's and targets</li> <li>• Approves changes to priorities, KPI's and targets</li> <li>• Reports Municipal performance to the community twice a year.</li> </ul>
<b>Executive Council</b>	<b>Oversight</b>	<ul style="list-style-type: none"> <li>• Oversees the development of the municipality's performance management system</li> <li>• Assigns the responsibility of development to the Municipal Manager</li> <li>• Submits the PMS framework to council</li> <li>• Submits the priorities and objectives of the IDP to council</li> <li>• Approves the SDBIP</li> <li>• Assigns the responsibility for management of the PMS to the Municipal Manager</li> <li>• Quarterly evaluates the performance of the municipality</li> <li>• Approves implementation of Internal Audit recommendations in performance and PM System.</li> <li>• Receives performance audit report from the AG and makes recommendations to council.</li> </ul>
<b>Ward Committees/ Communities</b>	<b>Participatory</b>	<ul style="list-style-type: none"> <li>• Advise the Mayor on priorities and objectives of the IDP</li> <li>• Participates in the drafting and implementation of the IDP</li> <li>• Participates in the monitoring, measurement and review of the municipality's performance</li> <li>• Discuss the development, implementation and review of the municipality's PMS</li> <li>• Monitors the municipality's performance</li> <li>• Participates in the development of the KPI's</li> <li>• Participate in the formulation of proposals for performance improvements</li> <li>• Reports to the Mayor recommendations for the improvement of the PM System</li> <li>• Participate in the annual review of performance</li> </ul>

<b>DESIGNATION</b>	<b>ROLE</b>	<b>RESPONSIBILITIES</b>
<b>Municipal Manager</b>	<b>Monitoring</b>	<ul style="list-style-type: none"> <li>• Manages the development of the performance management function/framework</li> <li>• Ensures that a high level scorecard, linked to the IDP and budget is developed</li> <li>• Ensures that all role players implement the provision of the PMS framework</li> <li>• Receives the quarterly and annual audited performance reports from Internal Audit.</li> <li>• Submits all necessary reports on performance to exco and council</li> </ul>
<b>Performance Management</b>	<b>Establish, monitor and control</b>	<ul style="list-style-type: none"> <li>• Ensure compliance with the System Act</li> <li>• Establish a performance management system for the municipality</li> <li>• Promote a culture of performance management among its political structures, political office bearers and councilors and its administration</li> <li>• Administer the PMS in an economical, effective and efficient and accountable manner.</li> <li>• Establish a framework with demonstrates the operation and management of Performance Management</li> <li>• Ensure PMS links to the Integrated Development Planning process</li> <li>• Ensure that key performance indicators in respect of development priorities and objectives are set</li> <li>• Ensure community participation in the various performance management processes</li> <li>• Obtain quarterly information on progress on targets set in the organizational scorecard</li> <li>• Review KPI's annually</li> <li>• Ensure that performance targets are set</li> <li>• Develop and implement mechanisms, systems, and processes for monitoring, measurement and review of performance</li> <li>• Establish a process of regular reporting to the council, political office bearers and staff, the public and appropriate organs of the state.</li> <li>• Prepare quarterly and annual reports on organisational performance</li> <li>• Ensure that an early warning system is in place to detect indications of under-performance.</li> <li>• Ensure corrective measures for under-performance have been identified</li> <li>• Ensure that a performance audit committee is appointed</li> <li>• Ensure that a budget exists for the audit committee</li> <li>• Ensure performance audit committee complies with the Systems Act regulations</li> <li>• Ensure that at secretariat service is provided for the performance audit committee</li> </ul>

<b>DESIGNATION</b>	<b>ROLE</b>	<b>RESPONSIBILITIES</b>
<b>Internal Audit</b>	<b>Monitor and review</b>	<ul style="list-style-type: none"> <li>• Assess the functionality of the PMS</li> <li>• Ensure the system complies with the Act</li> <li>• Determine whether the performance measurements are reliable in measuring performance</li> <li>• Continuously audit performance measurements of the municipality</li> <li>• Annually audit the results of performance measurement</li> <li>• Submit quarterly reports on the audits to the municipal manager and the performance audit committee</li> </ul>
<b>Audit Committee</b>	<b>Oversight review</b>	<ul style="list-style-type: none"> <li>• Must meet at least twice during the financial year</li> <li>• Review quarterly reports</li> <li>• Review the municipality's performance management system and make recommendations to council</li> <li>• Submit an audit report to council at least twice during the financial year</li> </ul>
<b>Senior Management</b>	<b>Implementer</b>	<ul style="list-style-type: none"> <li>• Set KPI's and targets</li> <li>• Determine responsible persons</li> <li>• Ensure that plans in place meet set targets</li> <li>• Implements performance improvement measures approved by the Executive Mayor and Council</li> <li>• Ensures that the performance objectives in the performance agreements are achieved.</li> <li>• Provides quarterly information to update the organisational scorecard</li> <li>• Retains evidence of all items reported on performance.</li> </ul>

### 13. Community Participation

#### **Batho Pele (1998)**

The White Paper on Transforming Public Service Delivery (Batho Pele) puts forward eight principles for good public service which should be encapsulated in a municipal Performance Management System, namely:

- a) Consultation: Citizens should be consulted about the level and Quality of public service they receive, and, should be given a choice about the services that are offered.
- b) Service standards: Citizens should be told what level and quality of public services they will receive so that they are aware of what to expect.
- c) Access: All citizens should have equal access to the services to which they are entitled.
- d) Courtesy: Citizens should be treated with courtesy and consideration.
- e) Information: Citizens should be given full and accurate information about the public services they are entitled to receive.
- f) Openness and transparency: Citizens should be told how national and provincial departments are run, how much they cost, and who is in charge.
- g) Redress: If the promised standard of service is not delivered, citizens should be offered an apology, a full explanation and a speedy effective remedy; and when complaints are made, citizens should receive a sympathetic, positive response.
- h) Value-for-money: Public services should be provided economically and efficiently in order to give citizens the best possible value-for-money.

*“Importantly, the Batho Pele White Paper notes that the development of a service-oriented culture requires the active participation of the wider community. Municipalities need constant feedback from service-users if they are to improve their operations. Local partners can be mobilized to assist in building a service culture”. – The White Paper on Local Government (1998)*

The Municipal Systems Act of 2000 requires all Municipalities to adopt a democratic approach to local government in order to meet their mandate of playing a developmental role. The approach implies that all stakeholders need to be afforded an opportunity to voice their opinions before final decisions are made on the IDP process. This gives real meaning to the notion of a participatory concept in Local Government affairs.

The city utilizes the following structures to ensure that it reaches out to all members of the community:

## **14. Conclusion**

This framework provides a guide for the measurement of organisational performance. It is subject to change due to new legislative requirements which occur from time to time.

Performance is a consultative process and it needs to be clearly understood by all levels of staff and management, so that each individual in the municipality can play a role in meeting the vision of the organization. Clearly in order to achieve this, the municipality and its employees need to establish a culture of performance driven management.
